Far Infrared Sauna

Traditional Steam Sauna

Foot Sauna

Why Sauna

Portable Steam Sauna

Far Infrared Sauna

Model: KY-AH01
 Size: 90*90*1900mm
 Capacity: 1 Person
 Wood: Canadian Hemlock
 Heater: Ceramic Heater
 Power: 1400W
 Control Panel: Dual Digital Control panel
 FM/CD player: Yes
 LQ(20GP/40HQ): 33/72pcs

Model: KY-AH02
 Size: 1200X1000X1900(mm)
 Capacity: 2 Persons
 Wood: Canadian Hemlock
 Heater: Ceramic Heater
 Power: 1750W
 Control Panel: Dual Digital Control panel
 FM/CD player: Yes
 LQ (20GP/40HQ) : 21/52PCS

Model: KY-AH03
 Size: 1500X1100X1900(mm)
 Capacity: 3 Persons
 Wood: Canadian Hemlock
 Heater: Ceramic Heater
 Power: 2100W
 Control Panel: Dual Control panel
 FM/CD player: Yes
 LQ (20GP/40HQ): 17/40PCS

Far Infrared Sauna

Model: KY-AH04
 Size: Size: 1800X1200X1900(mm)
 Capacity: 4 Persons
 Wood: Canadian Hemlock
 Heater: Ceramic Heater
 Power: 2400W
 Control Panel: Dual Digital Control panel
 FM/CD player: Yes
 LQ(20GP/40HQ): 14/34PCS

Model: KY-AH05
 Size: 1500*630*1230*1900 (mm)
 Capacity: 5 Persons
 Wood: Canadian Hemlock
 Heater: Ceramic Heater
 Power: 2400W
 Control Panel: Dual Digital Control panel
 FM/CD player: Yes
 LQ(20GP/40HQ): 14/32PCS

Far Infrared Sauna

Model: KY-BH01
 Size: 900X900X1900(mm)
 Capacity: 1 Person
 Wood: Canadian Hemlock
 Heater: Carbon Fiber Heater
 Power: 1400W
 Control Panel: Dual Digital Control panel
 FM/CD player: Yes
 LQ(20GP/40HQ): 33/72pcs

Model: KY-BH02
 Size: 1200X1000X1900(mm)
 Capacity: 2 Persons
 Wood: Canadian Hemlock
 Heater: Carbon Fiber Heater
 Power: 1750W
 Control Panel: Dual Digital Control panel
 FM/CD player: Yes
 LQ(20GP/40HQ): 21/52pcs

Model: KY-BH03
 Size: 1500X1100X1900(mm)
 Capacity: 3 Persons
 Wood: Canadian Hemlock
 Heater: Carbon Fiber Heater
 Power: 2100W
 Control Panel: Dual Digital Control panel
 FM/CD player: Yes
 LQ(20GP/40HQ): 17/40pcs

Far Infrared Sauna

Model: KY-BH04
 Size: 1800X1200X1900(mm)
 Capacity: 4 Persons
 Wood: Canadian Hemlock
 Heater: Carbon Fiber Heater
 Power: 2400W
 Control Panel: Dual Control panel
 FM/CD player: Yes
 LQ(20GP/40HQ): 14/34pcs

Model: KY-BH05
 Size: 1500*630*1230*1900 (mm)
 Capacity: 5 Persons
 Wood: Canadian Hemlock
 Heater: Carbon Fiber Heater
 Power: 2400W
 Control Panel: Dual Control panel
 FM/CD player: Yes
 LQ(20GP/40HQ): 14/32pcs

Far Infrared Sauna

Model: KY-CN01C
Size: 1200X1200X1900(mm)
Capacity: 2-3 Person
Wood: Canadian Hemlock
Heater: Combined Heater
Power: 2000W
Control Panel: Dual Digital Control panel
FM/CD player: Yes
LQ(20GP/40HQ): 20/49pcs

Model: KY-CN02C
Size: 1200X1200X1900(mm)
Capacity: 2-3 Persons
Wood: Canadian Hemlock
Heater: Combined heater
Power: 2000W
Control Panel: Dual Digital Control panel
FM/CD player: Yes
LQ(20GP/40HQ): 20/49pcs

Model: KY-CN03C
Size: 1200X1200X1900(mm)
Capacity: 2-3 Persons
Wood: Canadian Hemlock
Heater: Combined Heater
Power: 2000W
Control Panel: Dual Digital Control panel
FM/CD player: Yes
LQ(20GP/40HQ): 20/49pcs

Far Infrared Sauna

Model: KY-GH04
Size: 1800X1200X1900(mm)
Capacity: 4 Persons
Wood: Canadian Hemlock
Heater: Ceramic heater
Power: 2400W
Control Panel: Inside Control panel
FM/CD player: Yes
LQ(20GP/40HQ): 14/34pcs

Model: KY-GH05
Size: 1500*630*1230*1900 (mm)
Capacity: 4-5 Persons
Wood: Canadian Hemlock
Heater: Ceramic heater
Power: 2650W
Control Panel: Inside Control panel
FM/CD player: Yes
LQ(20GP/40HQ): 14/32pcs

Far Infrared Sauna

Model: KY-AR01
Size: 900X900X1900(mm)
Capacity: 1 Person
Wood: Canadian Red Cedar
Heater: Carbon Fiber Heater
Power: 1400W
Control Panel: Dual Digital Control panel
FM/CD player: Yes
LQ(20GP/40HQ): 33/72pcs

Model: KY-AR02
Size: 1200X1000X1900(mm)
Capacity: 2 Persons
Wood: Canadian Red Cedar
Heater: Carbon Fiber Heater
Power: 1750W
Control Panel: Dual Digital Control panel
FM/CD player: Yes
LQ(20GP/40HQ): 21/52pcs

Model: KY-AR03
Size: 1500X1100X1900(mm)
Capacity: 3 Persons
Wood: Canadian Red Cedar
Heater: Carbon Fiber Heater
Power: 2100W
Control Panel: Dual Digital Control panel

Traditional Sauna

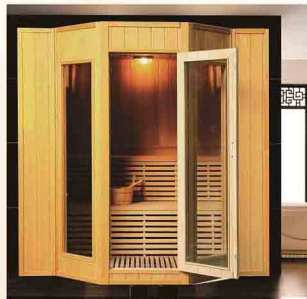

Model: KY-T01
Size: 900X900X1900(mm)
Wood: Canadian Hemlock
Heater: Stove
Power: 2.9KW
1 layer bench
Including: Hygro-thermometer; Safe lamp;
Bucket & ladle; Sauna stove
Capacity: 2 Persons
LQ(20GP/40HQ): 33/72pcs

Model: KY-T03
Size: 1500X1100X1900(mm)
Wood: Canadian Hemlock
Heater: Stove
Power: 4500W
1 layer bench
Including: Hygro-thermometer;
Safe lamp;
Bucket & ladle;
Sauna stove
Capacity: 3~4 Persons
LQ(20GP/40HQ): 14/34pcs

& Optional Parts

Model: KY-T04
Size: 1500x1500x2000(mm)
Wood: Canadian Hemlock
Heater: Stove
Power: 6000W
2-layer bench
Including: Hygro-thermometer;
Safe lamp;
Bucket & ladle;
Sauna stove
Capacity: 4 Persons
LQ(20GP/40HQ): 10/28pcs

Standard Parts:

Foot Sauna

Model: KY-FS01
Wood: Hemlock both inside & outside
Size: 450*350*650mm
Heater: Heating Panel
Power: 280W/50HZ
Control Panel: Digital control panel

Model: KY-FS02
Wood: Hemlock both inside & outside
Size: 450*350*650mm
Heater: Heating Panel
Power: 280W/50HZ
Control Panel: Digital control panel

Model: KY-FS03
Wood: Hemlock both inside & outside
Size: 450*350*650mm
Heater: Heating Panel
Power: 320W/50HZ
Control Panel: Digital control panel

Model: KY-FS04
Wood: Hemlock both inside & outside
Size: 500*400*720mm
Heater: Heating Panel
Power: 280W/50HZ
Control Panel: Digital control panel

Portable infrared sauna

MODEL: KY-PI01
Power: 635W (110V~240V,50~60Hz)
Heater: Carbon Heating Panel, & feet heating pad
Bathtub material: Cloth outside, PVC coated material inside with cotton in the middle
Color Available: Silver bathtub with blue or pink zipper
Include: Bath tub; PP supporting panel; Digital Sauna Time/Temp.Control;
Foot Heating board;Sponge mat; Foldable Chair
Tent Size: 78*71*98cm
Packing: 1set/carton
Load Qty: 280pcs/20GP; 680pcs/40HQ

Far Infrared Ray & Sauna

What Is Far Infrared Ray

The complete spectrum of sunlight consists of visible rays. The visible rays are red, orange, yellow, green, indigo, blue, and violet in color, known as rainbow colors. The invisible rays are Ultra Violet, X-rays, Gamma, Cosmic, Microwave, Long Wave, Electrical Wave, and infrared.

Electromagnetic waves between visible light and the microwave are called infrared waves. The wavelength of infrared waves ranges from 0.76 microns to 1,000 microns. Infrared rays vary in wavelengths, and are categorized as near infrared (0.76 to 1.5 microns), mid infrared (1.5 to 4 microns) and far infrared (4 to 1,000 microns). The most noticeable is far infrared waves:

Radiation: Far infrared rays radiate or spread from a localized source.

Penetration: Unlike visible light, Far infrared rays can deeply penetrate skin and the underlying tissues up to 1.5 to 2.8 inches (approx. 3.75 °C 7 cm).

Resonance: Far infrared rays naturally generate heat by causing the Body's molecules to rapidly vibrate against each other.

For further information, the natural resonant frequencies of molecules of water and organic substances are within the Far Infrared rays frequencies (wavelength of 5.6 to 15 microns), therefore, water and organic substances absorb energy easily from this radiated Far infrared rays. Since it is their resonant frequency, they vibrate vigorously at that frequency and become the radiator of the frequency as well as its receiver.

There is more water inside of our body than on the skin surface; therefore, FIR wave deeply penetrates the body (1.5 to 2.8 inches).

How is Far Infrared Sauna

Infrared Saunas are unlike conventional saunas which pull sweat out of the body. Far infrared energy penetrates up to 3 inches into the body and PUSHES sweat out of the body. As the body is heated from the inside out, it forces toxins under the skin out. The temperature of a far infrared sauna is typically between 90 °F to 120°F versus a traditional sauna which operates between 180 °C 220°C. However, despite operating at a lower temperature, you will typically perspire far more in infrared sauna because the infrared energy penetrates your body at a much deeper level.

Fat becomes water soluble at 100°F when it begins to dissolve, move through the blood and finally is removed from the body, resulting in weight loss. Toxins are also eliminated through your skin using lower, comfortable temperatures, for rapid detoxification.

Benefits of Far Infrared Sauna

Detoxification, Immune System Enhancement, Stress, Weight Control, Cardiovascular Conditioning, Cellulite, Pain Relief and Control, Skin Cleaning and Rejuvenation, Increased secretion of, Cancer Therapy

Comparison Far Infrared Sauna & traditional sauna

Comparison: Far Infrared & traditional saunas	Infrared Sauna	Traditional Finnish Sauna
Material	Wood	Wood
Safe	More Safe, no hot surfaces or High temperatures	Safe with hot surfaces
Heat Source	Infrared Heater	Electric Stove Element
Heat Transmission	Far Infrared Ray	Hot Air
Heating Body	Penetrate Into Three Inches Under Skin.	Body surface
Temperature	43°C - 65°C	more than 80°C
Electric Power	1 Kw - 2.5 Kw	3 Kw - 6Kw
Pre-heat Time	20 Minutes	30 - 90 Minutes
Fresh Air Circulation	Yes	No
Water Equipment	No need	Yes
Comfort Level	Very High	Very Low
Location of Sauna	Any place in room	the floor of the room need bear wet condition

WHY?

What is Portable Steam Sauna?

Are you feeling drained after a long and stressful day in the office or you are enduring the stubborn muscle pain?

Portable steam sauna is the environmentally friendly equipment which is useful for anyone looking for health.

How to use?

It is designed to take only 2-3 minutes to reach the constant temperature sauna temperature of 50°C by adding proper water to the steam generator, together with the addition essential oil of Chinese herbs. The timer enables you to select your desired time. The inner anti-dry protection completely ensures your safety while using it "No water, Auto off."

Benefits

People can benefit a lot by using steam sauna. Some of the benefits include relief from joint pain and muscle soreness, improved circulation, reduced inflammation, and relief from allergies and asthma. It also serves as a beauty aid with benefits such as weight loss due to detoxification, beautiful skin, and cellulite reduction.

Principle

Our portable steam sauna has a tub tent that covers the body and allows the head to remain outside, beautician can give users a facial and body treatment at the same time. A steam generator is used to create water vapor at high levels of humidity.

The heat and humidity may bring health benefits ranging from aiding stress relief to body cleansing, to soothing aching muscles or arthritis.

Feature

Unlike other steam systems that waste gallons of water, our steam sauna takes very little space and only uses a few points of water.

In this way our eco-friendly equipment conserves the amount of water used and also requires a little electricity. You may enjoy our sauna anytime and anywhere in your home, such as living room or bedroom when you watch TV, reading newspaper or magazine etc.

Typical Applications

It is widely used by health care professionals, such as medical SPA's chiropractors, medical doctors, nurses, acupuncturists and those who are seeking better ways to improve people's overall health.

Portable Steam Sauna

Portable Steam Sauna

Model NO.: KY-PS01
 Dimensions: 80*90*105cm
 Voltage: 110V/220V/240V
 Power: 900W
 Package: 3pcs/ctn
 G.W/N.W: 18KGS/16.5KGS
 Color optional Red with blue, red with silver,
 pink with silver, white with black
 Steamer optional 1.5L, 1.8L, 2.0L

Model NO.: KY-PS02
 Dimensions: 80*88*103cm
 Voltage: 110V/220V/240V
 Power: 700-1000W
 Package: 2pcs/ctn
 G.W/N.W: 13KGS/9.5KGS
 Color optional Red, pink, silver, grey
 Steamer Optional: 1.5L, 1.8L, 2.0L

Model NO.: KY-PS03
 Dimensions: 78*90*103cm
 Voltage: 110V/220V/240V
 Power: 700-1000W
 Package: 2pcs/ctn
 G.W/N.W: 14KGS/12KGS
 Color optional Red, pink, silver, grey
 Steamer optional 1.5L, 1.8L, 2.0L
